

B.LIFE

B.LIFE

BIANCA

sacma[®]
Many generations, one passion

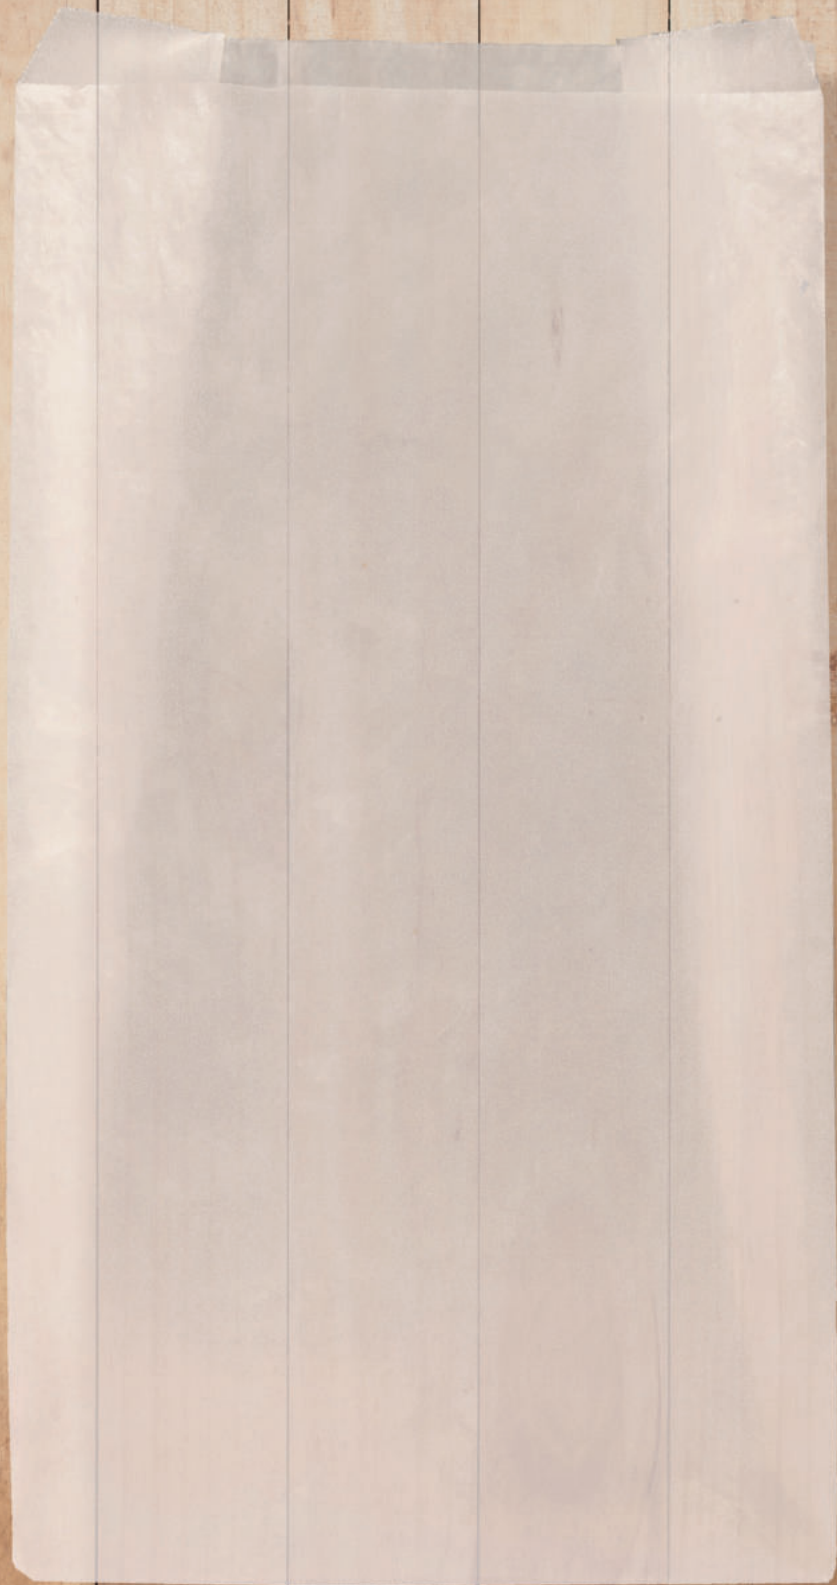

Think about the **FUTURE**,
think **GREEN!**

To give you a proper idea of B.Life, we need to consider not just the product range, but everything that surrounds it: the whole production process and its environmental impact.

This new bag in our range is remarkable for its brightness. This is due to a better compromise between zero environmental impact and choice of materials. Free of optical brighteners and printed with compostable organic pigments, the bag is unrivalled in its class and is ideal for enhancing the visibility of its contents.
